

RMS Cub Up is a school-wide positive behavior support program that focuses on students being respectful, responsible, and at their personal best. Cub Up was developed to recognize and reward students who model and display positive behavior/character traits desired in a school setting. Each month a designated behavior/character trait becomes the focus of the classrooms and common areas of the school creating a continuous building of positive behavior throughout the school year. See the desired behavior traits and recognitions by clicking on the document titles in the left hand column.

The Cub Up program also recognizes students on the Honor Roll, athletes, club participants, and students participating in other extracurricular activities. Students being recognized may choose to display their name on the BRMS Honor Wall located in the main entry of the school.
